DEDICATION

FRED GRADY

Mr. Fred Grady, talented musician and beloved bandmaster, was appointed twenty years ago, director of instrumental music in the Holyoke Public Schools. Beginning his musical career in 1895, he advanced steadily. His activities associated him with leading bands in Holyoke and Springfield and with famous orchestras in the theaters of New York City.

Always, his genial smile, friendly manner, cooperative spirit, musical skill induced success. With boys and girls, results were instantaneous. He organized the Holyoke High School band and orchestra, and all the

public school bands throughout the city. He conducted great Music Festivals, and with his band won several prizes at the Eastern States Exposition. Colorful and enlivening, his musicians established lasting reputations, and he himself through his spirited song — Hail, Holyoke High School — merited the esteem of students, alumni, and teachers. All valued his guidance, all praised his accomplishments.

So in recognition of untiring service to Holyoke High School, the Class of 1946 affectionately and appreciatively dedicates this Yearbook.

A. HOMER HEBERT

Holyoke High School,
We gratefully express our deepest appreciation

The abiding friendship made possible to us,
Through your years among us.
Night had been darker, had you not lifted
Torch of beauteous knowledge, sifted
False from true, so things concealed
Stood clearly out, as God revealed.

CLASS DAY

ADDRESS OF WELCOME

Parents, Teachers, and Friends:

The senior class at Holyoke High School is fortunate and thankful to be able to present the first peace-time Class Day exercises since 1941. We are fortunate and we are thankful also to have parents and teachers whose prime endeavor has been to preserve and pass on to us the permanent features of education through the chaotic world conditions which have prevailed during our high school years.

To our parents we owe a debt of gratitude which words cannot express. From our earliest youth they have instructed us in the American ideals of love of God and country which three years of high school have nourished and developed in our minds and in our hearts. Every goal that we have reached and every success we have attained reflects the sacrifice, the patience, and the understanding of those who have sponsored our undertaking, our parents and our teachers.

We are now ready to take our place in an uncertain world. We fully understand that we, the high school graduates of today, must preserve and guard the peace which has been so dearly won. With this thought in mind, it is reassuring to know that we possess the best possible foundation to undertake the task. This foundation is a good education, and it is for this education that we extend to our principal, Mr. Fitzpatrick, and to all the faculty, our deepest thanks.

When we entered Holyoke High School three years ago, this day seemed far distant. But now we have completed this period of our formal training. We are eager to advance to the next phase of our lives, but our eagerness is somewhat dulled when we realize how many friends will be separated when we set forth from this school. For this reason we rejoice in the opportunity to review our three years at Holyoke High School.

It is my privilege today to extend to you, in behalf of the members of the class of 1946, a most cordial welcome to our Class Day Exercises.

CLASS HISTORY

The class of 1946 has spent its days at Holyoke High and now the end is at hand. We have accomplished the education which was our main objective, and in addition we have made a fine record for this, the history of the past three years.

Let us begin in September of 1943. This was the year we entered Holyoke High as insignificant sophomores.

Although we were not as active as our upperclassmen, we did have a chance to display our ability in the Student Government, when members of each section were chosen for the Student Council. The work done by them during the year was excellent.

When election of class officers came we thought carefully about the students capable of filling such an honored position. We were wise in our decision when we chose the following students. Andrew Dougherty, President; Bertha Brackman, Vice President; Claire Sullivan, Secretary; Roy Walker, Treasurer; and Leroy Hyland, Marshall.

On November 10, 1943, the entire school was present at the formal dedication of the service flag of Holyoke High. Many of our brothers and sisters were represented here and it was a proud moment for us.

December 7, 1943, the second anniversary of Pearl Harbor, found our class successfully doing all we could in promoting the sale of war bonds and stamps.

Basketball season was here and Holyoke High's courtmen proved they were destined for fame by winning game after game. As a result of their splendid playing they were in line for the New England finals. They were nosed out, however, by Sommerville in a close game with the decision of one hoop. They made all of Holyoke's fans proud of them as well as their coach Mr. Sullivan.

"Junior Miss", a play given by the Dramatic Club in which many of our class mates contributed their talents, was a tremendous success. For some of us, it was the first chance we had had to display our acting ability.

When "Color Day" came, we all wore the traditional purple and white, and were proud of it, for it distinguished us as members of Holyoke High.

Then on June 6, 1944, came the long anticipated D-Day. Regardless of all expectations, the shock was great. Many hearts were heavy that morning, when we went to auditorium to pay tribute to the sons of America who were risking their lives that we might live in a world of peace.

Let us pass, now, from our sophomore to junior year. This year saw three changes in the personnel of Holyoke High. Miss Julia Brown, our school nurse, left to serve in the United States Army Nurses' Corps. Miss

Muriel Landers, speech teacher, accepted a position as speech director at Northwestern University. Mrs. Manning, our matron retired. They were replaced by Mrs. Senay, Miss Grace Healey and Mrs. Katherine Dowd.

Those of our class who had been elected in June 1944 as members of the student council were: Margaret Shea, William Fitzgibbons, and Frank Matuszek. At the September election of cabinet officers, Margaret Shea was elected secretary. Miss Gertrude Griffin and Mr. Wyatt Harper replaced Miss Anna Gear and Mr. Frederick Mockler as Faculty Advisors for the council. Miss Gear and Mr. Mockler had devoted many years to the Student Council and we deeply appreciated the time and effort given during those years. Class representatives were chosen and they were on their way with an excellent group to work with. This year the council established a "Lost and Found" department. To those who were forever losing books, pencils, pens, and other numerous articles, this was a God-send.

Again we held election of class officers, choosing such capable students as: William Fitzgibbons, President; Dorothy Galary, Vice President; Phyllis Steinbock, Secretary; Donald Cauley, Treasurer; and Leroy Hyland, Marshall.

On November 17, 1944, the "Big Sister" party, which had been omitted in our sophomore year was resumed. This was to be something new for us as well as our little sisters. Girls of Holyoke High attended this affair and it was one of the most successful events of the year.

Football season was here again. This year our prospects were brighter. Under the direction of Coach Arthur Roberts training began. As a result of hard vigorous training the team was ready for its triumphant season. It was one of the most successful seasons in the history of Holyoke High, even though we lost the Western Massachusetts championship to Adams.

On December 26, 1944, the annual Senior-Junior Prom was held in the War Memorial Building. The Senior-Junior officers combined in a committee for the dance. Lovely girls in equally lovely gowns added color to the festive occasion, and all attending enjoyed a delightful evening, despite the bad weather.

The prom wasn't the only dance of the season. Definitely not!! The Student Council Herald dances drew a large group. Fun and frolic was in the air at both dances.

The basketball team showed no loss of ability this year, for they received the Valley League championship award and again proved the outstanding athletic skill of Holyoke High.

This year the play given by the Dramatic Club was "Plane Crazy." Again many of the class of "46" contributed their time and effort to its production. The play was a great success as usual and there was a full house both nights.

An innovation next occurred in the high school. Strangers coming to Holyoke High in need of direction were now to be greeted by receptionists, who were appointed by the Student Council in March. They continued to fulfill their duties throughout the year. Favorable comments were made on the courteous manners of these receptionists.

April 13, 1945, is a date clear in the memories of everyone. This was the day our beloved President, Franklin Delano Roosevelt died. A deep feeling of sorrow was prevalent in the hearts of everyone. To us he symbolized all the great men of the world and his death left us stricken with grief.

May 8, 1945, such a short time after the death of our President, V-E Day was announced. The man who had strived so hard for this day was not with us. We assembled at Mackenzie Field to give thanks to the Almighty for bringing to an end the European War, and to pray in gratitude for those who had fallen that freedom might live.

June was here and we were invited, as a group, to attend the graduation exercises of the class of "45". This experience was to aid us when our class reached its goal. My but we were impressed by the large group of parents who received their son's diplomas. Little did we know that when we returned as seniors this service was no longer to be held.

World War II had ended and when we entered in September of 1945 our minds stirred in retrospect of three years of war. We could never worthily and fittingly appraise this class, whose outstanding war contributions aided in the winning of the peace. Our efforts were not in vain, for the peace which we had strived for was no longer a dream but a reality.

This year we were to see many changes pattern. We were seniors and as seniors we had much to do.

The Student Council elected cabinet officers, and representatives of sections by their section members were chosen. The officers of the cabinet were: William Fitzgibbons, President; Margaret Shea, Vice-President; and Joan Schiebel, Secretary.

For the first time since the war started the Student Council Convention was held. Representatives of our Student Council attended this convention.

The annual Student Council dance was held at the War Memorial building on February 21, 1945. Jimmy Downing's orchestra provided music for dancing and with everyone enjoying a splendid evening, the dance was a success.

Miss Lillian Maxfield, Dean of girls, was taken ill late in November and her absence from us was to be for an indefinite period of time. Our wishes for a speedy recovery were extended to her as were our hopes for her return in the near future. Miss Elizabeth O'Hern, head of the Economics Department, was appointed in Miss Maxfield's place, temporarily, that she might give the helpful counsel and guidance we were accustomed to. We appreciate the untiring efforts of Miss O'Hern and hope she enjoyed her position, for we think very highly of her. Miss Maxfield returned to us in February. We were pleased to see that she had fully recovered and was back with us to stay.

We elected Senior leaders in November, "45", choosing the following students: James Shea, President; Dorothy Galary, Vice President; Ruth Ann Regan, Secretary; Michael Bolko, Treasurer; and Austin Mulqueeny, Marshall.

The 1945 football season saw Co-Captains Andy McCormick and Austin Mulqueeny lead our eleven against powerful New Britain High of Conn. and against Pittsfield, Agawam, Westfield, Adams, Chicopee, Greenfield, Northampton and Springfield Tech. Lack of experience resulted in several defeats throughout the campaign, but the team gained a decisive victory over Northampton High and avenged a "44" football loss by defeating Adams High. These were the only two wins of the year.

The Student Council again took the initiative. They were the first to hold a special installation of officers. The president of each class and the cabinet president, took oath of office, as administered by Mr. Fitzpatrick, our principal. An inaugural address was given by each of the presidents.

We began to wonder whether we were to have an Annual this year. A meeting was called by our principal to choose the staff. We had an excellent group with Thomas Cody, as Editor-in-Chief. Prophets were chosen and the yearbook was on its way toward completion.

With the completion of our Yearbook the events shared by the Class of 1946 draw to a close. As we gather together for the last time, at Graduation Exercises, let us look with hope to the future for which we have been preparing since we entered Holyoke High. Take the advice of the American Poet, Henry Wadsworth Longfellow:

"Look not mournfully into the Past.

It comes not back again.

Wisely improve the future.

It is thine.

Go forth to meet the shadowy future,

without fear, and with a manly heart."

LIONEL M. ADELSON

A very versatile lad is "Butch." His interests are developing pictures, tooting the trumpet, and engaging in major sports. He was graduated from Metcalf School. Now he is graduating from Holyoke High, and will later graduate from college. Lionel has consistently had good marks, due to careful preparation of his lessons.

"Nature revolves but man advances."

FRANK C. ANDERS

"Paco" came to us from Lawrence Junior High School. He is taking a commercial course and is a member of the Dramatic Club. Frank enjoys basketball, baseball, and swimming. He intends to enter Radio Diction school after receiving his diploma.

"It is a fortunate man who knows his place and fits there."

LORRAINE E. ALACONIS

The Rooters' Club has a faithful member in "Al." This graduate of the Morgan Junior High possesses a voice which will be well known by telephone users in the future. Our future telephone operator is interested in dancing.

"She knew what to say and when to say it."

JEAN E. ANDREWS

A Rosary School graduate, "Jeanie" is interested in all sports — swimming being foremost. While at school she played on the basketball and the baseball teams and was an active member of the Rooters' Club. She plans to attend the Burbank School of Nursing and will cure many patients by her charming smile.

"Her smiles and friends are un-numbered."

RAYMOND E. AMEYE

"Lucky" is a grand fellow, able in his work, always good natured and friendly. Like many other students he greatly enjoys bowling. "Lucky" graduated from Lawrence Junior High School. After graduating from Holyoke High School he expects to enter the service. We know he will succeed in any field of endeavor.

"A chip of chance weigheth more than a pound of wit."

CHARLES E. ANDRUS

"Chuck" is a Joseph Metcalf graduate. He left Holyoke High School as a Sophomore, and voyaged up the majestic Hudson to study at New York Military Academy, but returned to us as a Senior. "Chuck" belongs to the band and is a first class dancer. He claims that he is thinking of going to work after he receives his diploma. Is that another idea you picked up in New York, Chuck?

"I have gained my experience."

FRANCES E. ARCHAMBAULT

One of the inspirational writers of this year's Annual, "Fran" plans to attend business college. She came to us from Perpetual Help School, and since then has belonged to the Rooters' Club and the Luncheon Committee. "Strike!" is a call often heard when Fran is bowling. She also likes dancing and skating.

"The better known, the greater is her worth appreciated."

JAN R. ATTINGER

It was a sad day for the Joseph Metcalf Junior High when Jan entered the halls of H.H.S. Their loss was our gain. Jan, as pianist, is an asset to the high school orchestra. She is also a member of the band, the Dramatic Club and the Yearbook Staff. Winter nights find "Jannie" at the skating rink. The gates of every college lie open to anyone with as much ability as Jan possesses.

"A widespread hopeful disposition is the best umbrella in this vale of tears."

THEODORE S. ARMATA

Here is the boy whom you see hither and yon in his car every day (and evening). Ted entered H.H.S. from Joseph Metcalf Junior High School. Ted is taking the General Course and between studying and his social life he finds time for knocking the puck around the rink and giving the ten pins a headache.

"Far may we search before we find
A heart so manly and so kind."

RITA M. AUBIN

Roller skating! Did we see her there last night? If you're speaking of Rita, of course. Her plans for the future include matriculation at a Secretarial College. She is a graduate of Perpetual Help School, and enjoys dancing and swimming.

"Quiet and retiring is she."

JOHN D. ASHE

"Jack," a good athlete, has been a member of the Holyoke High football and hockey teams. He excels in basketball, baseball, and swimming. An alumnus of H. B. Lawrence, "Jack" plans to enter the Service after graduation.

"Beware the fury of a patient man."

DONALD BAIN

Morgan Junior High sent us this dashing blond. "Don" is not only a very good looking boy, but he is also a good athlete and a popular fellow. He may attend college after he receives his diploma.

"A lion among ladies is a dreadful thing."

RAMON L. ASHLEY

"Ray" entered H.H.S. from Joseph Metcalf Junior High. During his years in Holyoke High he has acquired a reputation for good fellowship as well as for excellent scholarship. His one weakness seems to be encouraging laziness, by doing enough work for his whole class. "Ray" spends what spare time he has collecting postage stamps.

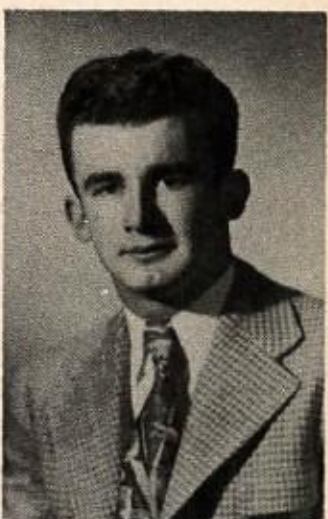

"On earth there is nothing great but man; in man there is nothing great but mind."

HAROLD R. BAKER

Meet "Harry" our unbeatable sax player (Rudy Vallee got his start that way). He has been one of Mr. Grady's faithful followers for three years. "Harry" spells pool with a capital "cue", and also enjoys football and basketball. Although his future is undecided, he will succeed in his life work because of his diligent work while enrolled in the General Course.

"The man who has music in his heart will be most in love with the loveliest."

ELIZABETH S. BALICKI

"Betty," who is particularly interested in swimming, dancing, and skating, is a graduate of the H. B. Lawrence Junior High. Our future "Florence Nightingale" was a member of the Rooters' Club, and also the Dramatic Club, during her three years at H.H.S. "The world deals good-naturedly with good-natured people."

GEORGE M. BARTSCH

George came to Holyoke High School from H. B. Lawrence. He is taking a commercial course. George, one of the quietest and most retiring boys in the Senior Class, plans to enter a Commercial School after he receives his Holyoke High diploma.

"Anything for a quiet life."

DANIEL J. BARCH

"Dan" entered Holyoke High School from Mater Dolorosa. His favorite sports are basketball and baseball. Dan is already a flier of some experience, and intends to put this training to good usage by entering the Air Corps after graduation.

"Tranquil people accomplish much."

CAMILLA H. BARUT

In your travels, remember "Cam" as you visit the world famous sites, for she is the girl who collects postcards. She was graduated from Mater Dolorosa School. At high school she was an asset to the Rooters' Club. Music rouses her passion for dancing. She is planning on a college career.

"Good character is more valuable than precious gems."

JOHN D. BARNETT

"Barney" came to H.H.S. from Highland School. While here he has made many friends because he is not afraid to say what he thinks. This quality is a great asset in true friendship. "Barney" is extremely fond of playing basketball, and is a "whiz" on the hockey rink. Here's to you "Barney".

"Following the fate assigned to him."

ROBERTA BASKIN

This Joseph Metcalf Junior High graduate took part in Dramatic and Rooters' Club activities while in high school. Her out-of-doors spare time is spent swimming and tobogganing; her fireside hours, knitting and drawing.

"Vivacity is the gift of women."

JEAN F. BARRETT

H. B. Lawrence Junior High is Jean's Alma Mater. She is particularly fond of reading, motion pictures, and knitting. We expect Jean to graduate from nursing school, a patient, gracious nurse whose personality will do much to soothe the pain of others.

"A woman of sense talks little and listens much."

DORIS E. BEAUDOIN

"Red," the girl who just walked out of "Junior Bazaar", was a member of the Dramatic Club and of the Rooters' Club. She enjoys tennis, swimming, tobogganing, and especially knitting, as is evident by her hand-knitted socks. A graduate of the Morgan Junior High School, she is planning on a college career.

"Look at me, for the latest styles you'll see."

LILLIAN BELL

After school hours, "Lil" can either be found ice-skating or watching the movies. She is an alumna of the H. B. Lawrence Junior School. While at H.H.S. she has been an active member of the Rooters' Club. "Lil" plans to travel cross-country as an Air-Line hostess.

"Ever loyal and ever true, to the task she has to do."

JANE E. BIEDRON

"Janie" will be one of the most popular nurses at the Providence Hospital. She came to us from Mater Dolorosa. At high school she has been a member of the Rooters' Club. Dancing, swimming, and horseback riding afford her many enjoyable hours.

"Enthusiasm always starts in the race, but perseverance always wins it."

CLAIRE M. BENOIT

The H. B. Lawrence Junior High is "Si Claire's" alma mater. Going to the movies and dancing afford her with many pleasant hours. After graduation she plans to be a switchboard operator.

"A helping hand she is ready to lend to anyone, especially a friend."

DOROTHY L. BINEAU

If "Debbie" takes care of your books, they'll always be in black and never in the red. This future bookkeeper was a member of the Rooters' Club. Perpetual Help School is her Alma Mater and her favorite pastimes are swimming, skating, dancing, knitting, and reading.

"The way to gain a friend is to be one."

BETTY B. BERMAN

One of the most outstanding class athletes, "Red", was graduated from the Joseph Metcalf Junior High. Among the many sports she has been interested in are basketball, softball, and volley ball. Skating, dancing, and swimming are her pet pastimes. Her plans for the future are centered around college.

"Witty, jolly, and carefree, always as happy as can be."

RUTH M. BLAIR

A graduate from the H. B. Lawrence School, modern-minded "Tony" is looking forward to the future. Interested in the field of navigation, she plans to become an Air Line Hostess. She participated in many school activities: The Rooters' Club, Basketball, Softball, Volley ball, the swimming teams, and the Dramatic Club.

"In all kinds of sports, she knows no defeat."

BRIAN P. BERTRAND

Meet "Bert" an all-round good scout. He came to H.H.S. from Blessed Sacrament. Hunting, swimming, skiing, and skating occupy most of his time, but the Technical College Course takes up the rest of his waking hours. We'll wager that many a fair damsel's heart has beat faster after one glimpse of his handsome countenance.

"Huntsman rest! thy chase is done."

LORRAINE M. BLANCHETTE

This classmate of ours was graduated from the Immaculate Conception Junior High. Upon entering H.H.S. in her Junior year, Lorraine became a devoted member of the Rooters' Club. Her leisure time is often occupied with dancing and swimming. After graduation Lorraine hopes to attend business school.

"May her every desire be fulfilled."

JOHN M. BOGEL

The youngest H.H.S. senior to graduate in five years. "Boge" is just over 16 years old. He came to Holyoke High from Mater Dolorosa. After graduation, he plans to attend St. John's Military Prep School. His formula for a well-rounded life is — some sports, some studying and ? (the fairer sex).

"It is better to be faithful than famous."

BERTHA M. BRACKMAN

H - O - L - Y - O - K - E! can be heard from "Bitsy's" megaphone at every game. This popular cheerleader was the Vice-President of our sophomore class. A graduate of the H. B. Lawrence Junior High, while in high school she has been a member of the Student Council Cabinet. Business School will take up the next few years of Bertha's future. When "Bitsy" isn't working at her many tasks, she enjoys dancing, skating, and knitting.

Because so few people possess this highly necessary talent, she will unselfishly divulge her secret to all entering students. She will lecture to all freshmen and sophomores on the subject "From Pine Street to 210 in Seven Strides."

Jo Anne Prentiss

Jo Anne's glamour and efficiency will enable her to become a member of Radio City's distinguished "Rockettes." As third from the left she will dance her way into the hearts of New York's playboys. Although mink coats galore will be laid at her feet, "Jo" will continue to wear her "beaver".

Edward Quillard

Vic's love for driving will bring him to the wheel of a racing car. How he will come down the home stretch at the Indianapolis Speedway!

Robert Rea

After Bob has completed his four year course in Aeronautical Engineering at Rennselaer Polytechnic Institute, he will establish and maintain daily flights in his inter-solar space ship to the as-yet-unknown outer orbits. This will all be done after the age of forty-five. The intervening time between college years and the age of forty-five will be devoted to research work for such companies as Boeing, Curtiss, and Lockheed.

Everett Reed

Everett will leave H.H.S. and will continue as an apprentice to a Pattern designer culminating as head "stock boy" for his own company. If you buy a new snazzy suit or a pair of bobby socks, look for the label, for the cloth might have been made by "Reed and Co."

Mabel Regan

Neisner Brothers assure us that they will compensate Mabel for her long and faithful service. In years to come she will be appointed head buyer for the "nuts and bolts" department.

Ruth Ann Regan

When Ruth Ann becomes head dietitian in the lunchroom, she will campaign for a complete renovation of the present system. The lunchroom committee will be provided with motorcycles in order that they may patrol with ease. Her greatest contribution will be the "coke" bars she will install in all classrooms to quench the thirst of talkative students.

Burton Resnic

Some day in the not so distant future, "Buddy" will sneak away from his law office to "beat out the boogie" with the boys of his band.

Patricia Reynolds

"Pat" will someday gain nation-wide attention as a composer of tuneful ditties. Her long experience on the Lunchroom Committee will inspire her to write a hit parade song. Its title will be "She Ducked Plates In The Lunchroom the Day They Had Turkey, Then Took It on The Wing."

Carmen Richards

Carmen's inevitable future is piano-playing. Something new will be added to the musical field when she enters it. Her unwritten symphony, "Geometry — In One Easy Lesson" will be an inspiration to all Geometry students as well as the favorite of all music lovers.

Lois Richardson

When Lois establishes her Studio of Spiritualism her cheery wit will be a great help to her. She will not only charm voices of the past but also, it is rumored, she will predict events of the future. During Mid-year examinations special rates will be given to eager high school students.

Norma Riley

Norm, having completed her course in hair styling will create a flourishing beauty parlor in East Oshkosh, Wisconsin. The men of the world will be eternally grateful to Norma for her realistic and modestly priced toupes. Senior boys worried about receding hairlines may feel free to contact her at any time.

Philip Ripa

Phil will be employed as a reputable gas station attendant. When his customers burp, Phil, because of his humor, will ask, "Is that gas or oil?"

Roland Roberts

Who interrupted his Holyoke High School course to become pilot in a big bomber flying constantly during World War II over the industrial cities of Germany, will become Head American Transport Command at Westover Field, in charge of C-54 Skymasters on daily North Atlantic trips.

Rene Robillard

Rene's brain for figures will carry him far and wide in the field of accounting, but as for "females" — Rene's "figure" brain just won't work.

Edward Roj

First Eddy will serve a hitch or two with the Navy, then enter Massachusetts State College. If college work gets too boring, he'll scrub his way around the world with the U.S.N., retiring on an Apprentice Seaman's pension.

Elliot Romm

"Elliot", a high honor student, will become one of our country's famous lawyers and accountants. He will attain great heights in the judiciary field; but, we warn him not to handle "breach of promise" or "law suits," in which he himself may become involved.

Edward Roy

Ed will head for the sunny coast to study Aeronautical Engineering at Cal-Aero Technical Institute in Glendale, California. He will set out as grease monkey, but will work his way up to president of his own airport. At this time he will be able to take time out to practise his wolf call at Hollywood and Vine.

Robert Rudzik

Bob is heading for the Canadian Woods where he will strain his mighty muscles in his job as chief lumberjack of the back woods. He will also raise his own crew, and save the extra expenses.

William Ryan

Whenever you are looking for groceries, go see Bill in his super-market. Your wish will be Bill's command. Remember, Bill, "The customer, like father, is always right."

Jane Rzewski

Jane has shown us by her excellent taste in clothes that she is capable of becoming one of the world's leading fashion designers. The United States Government will employ Jane as the exclusive designer of the complete wardrobes for the inmates of that fabulous institution known as Alcatraz.

Georgette St. Germain

After graduation Georgette will continue with her education in a higher institution of learning located in Maine. It will be a very select establishment known as "The Kernel's School." (Corny ain't it?)

Allan Sattler

At present "Al" is employed as a salesclerk at A. T. Gallups Inc. but soon he will rise to the position of general manager. Now you may think this prophecy a little extreme but you don't know "Al". His ability to get ahead can not be denied. If you doubt us, ask a certain "girl friend" who lives in "New Jersey".

Edward Sattler

Zep's infectious laugh will be an asset to him in Engineering School. Zep will open his own Aeronautical Engineering School either on Mars or the Moon, and will be glad to service all "crates" that reach his orbit.

Eather Seidel

Smiling Esther's ability to manipulate motor vehicles will gain for her a place in the "Who's Who in America." We see her attaining a high position as first head woman driver for the Transcontinental Trucking Association.

Eleanor Shaw

"Ellie" will reach the height of her success when she becomes the proprietress of an Inn on Lake Placid. In her spare moments she will compile a book of her skating experiences entitled, "It Happened on Ice or Breaking Bones Made Easy."

James Shea

Jim, a fellow you like to call friend, will make a big name for himself. His political training in H.H.S. will at least set him up as Park and Recreation Commissioner; soon afterwards he will become Mayor of Holyoke.

Margaret Shea

When Peggy has fully developed her muscles in fifth and sixth period gym classes she will be prepared to seek fame and fortune. Peg will enter her five feet plus in the Olympics and with little effort win first prize in the "chinning" contest.

Thomas Shea

Tom, an "up and coming" young genius of the engineering field, will soon battle the experts by building his own "rocket crate" and "zooming off to Mars."

Wanda Sieniawski

Wanda's ability to cook will lead her to open a baking shop on the corners of High and Main Streets. Besides having an unusual location for shop, her Biscuits will also have an unusual trade name, "If you can't carry them, bounce them Biscuits".

Fred Sigda

"Fritz" is leaving H.H.S. to join his Uncle Sammy's Navy. After twenty years of swabbing the decks, Fred will be content to retire on nothing less than Admiral's pay.

Paul Sima

If you ever need a good business accountant, just buzz for Paul and whatever the job is, he'll do it. Accounting, bookkeeping and, as a last resort, training first class swimmers will be Paul's contribution to mankind.

Allan Simpson

"Simp", whose love for the outdoors man is admirable, shall be induced to erect a monument to the "Hoboes of America." Each night as the clock strikes ten, you will find "Simp" tucking a few of them under their newspaper blankets at the foot of this great structure.

James Smith

"Jim", one of our "Army boys," has nothing to say about his future for the next few years. He may even find himself watching over a few "Sons of Nippon," and may have the opportunity of starting them on the right path.

Richard Smith

"Goof", uncontestably king of the pool room, will add his name to the list of "sharks." His humor and wit will never desert him and will keep him and his many friends of the "dumps."

Dorothy Snow

"Dot" will be puzzled about a word she will hear whenever she meets a former Holyoke High boy. She will ponder in vain the definition of "Hubba Hubba". It's not in Webster!

Saul Solin

"Saul" has plans of continuing his education by going to Northeastern University. Of course we know he wants to pursue his favorite hobby, "women". The "dude" will own a super - duper super-market which will be put into operation in the near future. Our only fear is — that his business may go to the "(hot)-dogs".

Mary Soltys

A little bird told your prophet that Mary is to become a famous politician. She will work her way up from soil inspector to an important position in the State House. From one dirty deal to another, I always say.

Irene Stacy

Irene will appear in a blaze of lights with her partner, Fred Astaire. They will leap to fame from the 99th floor of the Empire State Building.

William Stacy

After graduating from New Hampshire University Bill will set himself up as one of the high class sports announcers on the air. As a side line, Bill will play a great game of baseball and will then, day by day, write his own sport page in the "Stacy Daily."

Virginia Stafford

Virgie will become a benefactress to all future Holyoke High Students, for she will establish a trolley car line between the main building and the annex.

Erna Standen

Erna will roller skate her way to fame. Among her many honors will be a medal received from Mr. Fitzpatrick. It will be awarded for being "The only living person to skate through Halls of Holyoke High."

Lionel Stebbins

When you return to your dear old "Alma Mater" in the future, don't deny yourself the privilege of seeing the new chemistry teacher. "Chet" will become "Head of The Science Department" and commence analyzing chemical compounds. Our only fear is "Chet" will be soft-hearted and not hand out the assignments he is used to taking. Don't forget "Chet" the future generations are supposed to be "geniuses"; you'd better get "on the ball".

Phyllis Steinbock

Phyl's crinkly smile and short curly hair will enable her to become a cross-country pin-up as "Peck's Bad Girl."

David Stewart

In-as-much as Dave has worked so hard in school in these past three years, we really feel certain that he is in for a well deserved rest. When his funds run out, he will apply for admission to the Old Men's Home in Brightside.

John Strain

When John becomes manager of a nearby A & P Market, his chief joy will be giving orders instead of taking them. His business ability, mixed with his salesmanship, will aid him greatly. But he too must remember that "customer is always right", if he wishes to succeed and also "never mix business with pleasure". Huba! Huba! Huba!

Ann Suher

Because of her fondness for swimming, Ann will duck all landlubbers. She will establish an aquarium for all the "poor fish" that are caught talking in study. These fortunate creatures will flourish under so charming a teacher even if they are "all wet."

Stanley Suleski

Stan will make the navy his future. The future generations who attend Holyoke High will hear talks about a career in the navy from Stan. By that time he will have "hash marks" all the way up his right sleeve and a rating of chief petty officer.

Ann Sullivan

Ann, with her ready smile, will write a sequel to Dale Carnegie's "How To Win Friends and Influence People." Its title will be "And Then There Were Some."

Claire Sullivan

"Sul's" direct business approach in life will be a great asset when she establishes her "Foundation Of Learning for Handsome Men." When her pupils are graduated, she will honor them with a banquet served by the 1946 Lunchroom Committee. These who wish to attend will notify Miss Sullivan immediately. Phone Holyoke, 5636.

William Sullivan

Our friend, Bill, should go far in the field of Public Accounting. If he ever gets tired of this work, he can always fall back on baseball coaching to keep him on the ball.

James Sweeney

Before a vast group of the world's leading scientists, Jim will be lowered into the murky depths of the Holyoke High School swimming pool. There he will remain, enclosed in a casket, in order to determine the capacity of the human lungs. His efforts will be rewarded when he is made honorary member of the Science Club in an impressive ceremony held second and third recess in the Library.

Claire Szafran

Claire will earn her living making hay while the sun shines. On rainy days she will leave her fields and pass out "dry" text books to students rushing to school.

Albina Szklarski

"Bina" will become a well known scientist. Her most famous achievement will be her discovery of the flavor of a doughnut hole.

William Tager

No matter what field Bill intends to enter, we are sure he will make a great success of himself. Bill's famous personal opinions on any subject, should make him a good senator for Massachusetts.

Eileen Tennenbaum

"Tanner" will conduct the trial of a famous criminal. Because of her persuasive methods, she will not only have her client acquitted, but will send the judge and jury up for life.

Gerald Teahan

Gerald will soon enter the General Electric School at Pittsfield, where his knowledge of Volts and Amps will be greatly increased, until a certain day when he will get the shock of his life. That day will go down in history because then a certain Gerald Teahan will be made a full-fledged member of the Engineers' Union.

Joseph Teahan

Joe in his "Bell Bottom Trousers" is now giving some of his valuable time to Uncle Sam. He will be a twenty year man, retiring at the ripe old age of thirty-eight to settle down and raise his own boiler stokers.

Robert Thompson

It won't be long now before Bob "Doc" Thompson will hang out his shingle as head of the Holyoke Hospital. Bob will be a very prominent ambulance "taker outer."

William Thompson

When the bugle calls reveille, poor Bil, will be among the many thousands who will come forth to a sad awakening. Army life isn't the most pleasant one can possibly have but they certainly teach you many useful things. Bill will learn many possible pastimes which may net him a profitable income. Remember Bill, the "first fifty years are the hardest".

Vera Tiedemann

Typewriters jump at her command! She will revolutionize industry with an automatic gadget which will type the spoken word, as long as it is spoken backwards. How about donating a few of those useful tools to Holyoke High School for the benefit of those notorious backward students, Vera?

Frances Torba

Inspired by Fran's soft white hands, a famous company will name one of its products after her. So, don't be surprised when you see advertised, "Torba Fancy Sandpaper."

Ruth Trachy

Each night for many years Ruth has faithfully taken her dog for a stroll. Although she really enjoys this job we know it is hard on the feet. In the future we see Ruth as the owner of a radar set so she will know where her dog is while she is sitting in a comfortable chair bathing the feet that have covered many a mile.

Rosalie Trombowski

Known for her histrionic talent, "Rosie's" name will flash forth from the bright lights of Broadway. She will star in a hit comedy entitled "What Rosie Did When She Wasn't Riveting." Tickets are now on sale in the office next to 103. Bring your A.A. cards. Enter through the roof.

Patricia Trotman

Pat's name will be on the lips of the Holyoke High School Faculty for a "different reason." She will patent a brand of Vitamin Pills for students which will induce them to study five hours every night. Already "210" is working on an antidote.

James Ubertalli

Jim will use his mighty muscles to place him among the first eleven of some lucky grid team. Of course, his broad shoulders will be well padded when his women come to call.

William Vachon

Bill will be a world re-knowned traveler. His parents will bring him to all the unknown corners of the "globe." His hunting expeditions will keep him rolling in the dough, but getting weary of this work, Bill will settle down in Griswoldville with his small family of ten.

William Valencia

Bill will come out on, or near, the top in the field of baseball. A lover of sports, Bill may start his own "Sports Show of the Air," and put Bill Stern out of business.

Helen Vershon

Helen's "crown" in life will be a nurse's cap. Her "patient" manner will ensure distinction in her chosen field.

Phyllis Vershon

"Phil's" ability to fix a mean lemon and lime will be very helpful when she becomes Duffy's partner in his famous tavern.

Gladys Walker

One of the sweetest gals in our class! Gladys will become famous for her ability to outspoke the Spaniards in their native tongue. Rumor has it that she will hold the title of "Honorary Citizen of Barcelona."

Roy Walker

"Bootsie's" future will be in the sporting goods field. He will take over his father's place of business and become a very impressive salesman. At least all the women seem to agree that he has "quite a line."

Jean Walton

Jean will rise to great heights as a vital personality in radio. She will work with such famous stars as Bob Hope, Lowell Thomas, Kate Smith and many others. Her tremendously important task will be that of turning all the pages of their scripts.

Kenneth Walz

Ken will continue in the field of hard labor by traveling to the sunshine of California, where he will open up his own garage and will fix any and all cars "While-U-Wait." His specialty will be electrical engineering but he will fix up any old gas driven car that you dig up.

Shirley Walz

Shirley will become dean of girls in the "Hopeless Penitentiary." It will be established for the benefit of those girls who talk after the 8:15 bell in 210.

Dorothy Ward

Dot's reward for being blond, beautiful, and brainy will be a seat in Congress, where she will become "Woman Number One of America."

Claire Whalen

Claire will become secretary to the president of a ballet shoe manufacturing company. But Claire won't have to worry as she is a bright girl and always on her toes.

James Wehrlen

Jim will be another deck swabber, but after he receives his discharge, he will head for the northern woodlands. All fur-bearing animals had better be on the look-out since they will be Jim's reason for being in the woods, — maybe.

Sarsfield Wolohan

Cy will head out into the world as a prosperous surgeon. He will never understand Milton or Shakespeare, but his sharp wit will keep his cutting edge keen. Remember Cy, blood is red, and when you see red, it's time to stop.

Josephine Wychorski

Josephine will establish a travel agency. Every time report cards are issued, Josephine will be very busy planning trips for students who want to get away from things.

Stanley Zalewski

Stan will give some of his time to Uncle Sam as a fireman on a carrier, but will some day return to Holyoke to take up the art of paper manufacturing. His specialty will be a new type of paper for report cards — paper that won't show where those D's and F's have been erased.

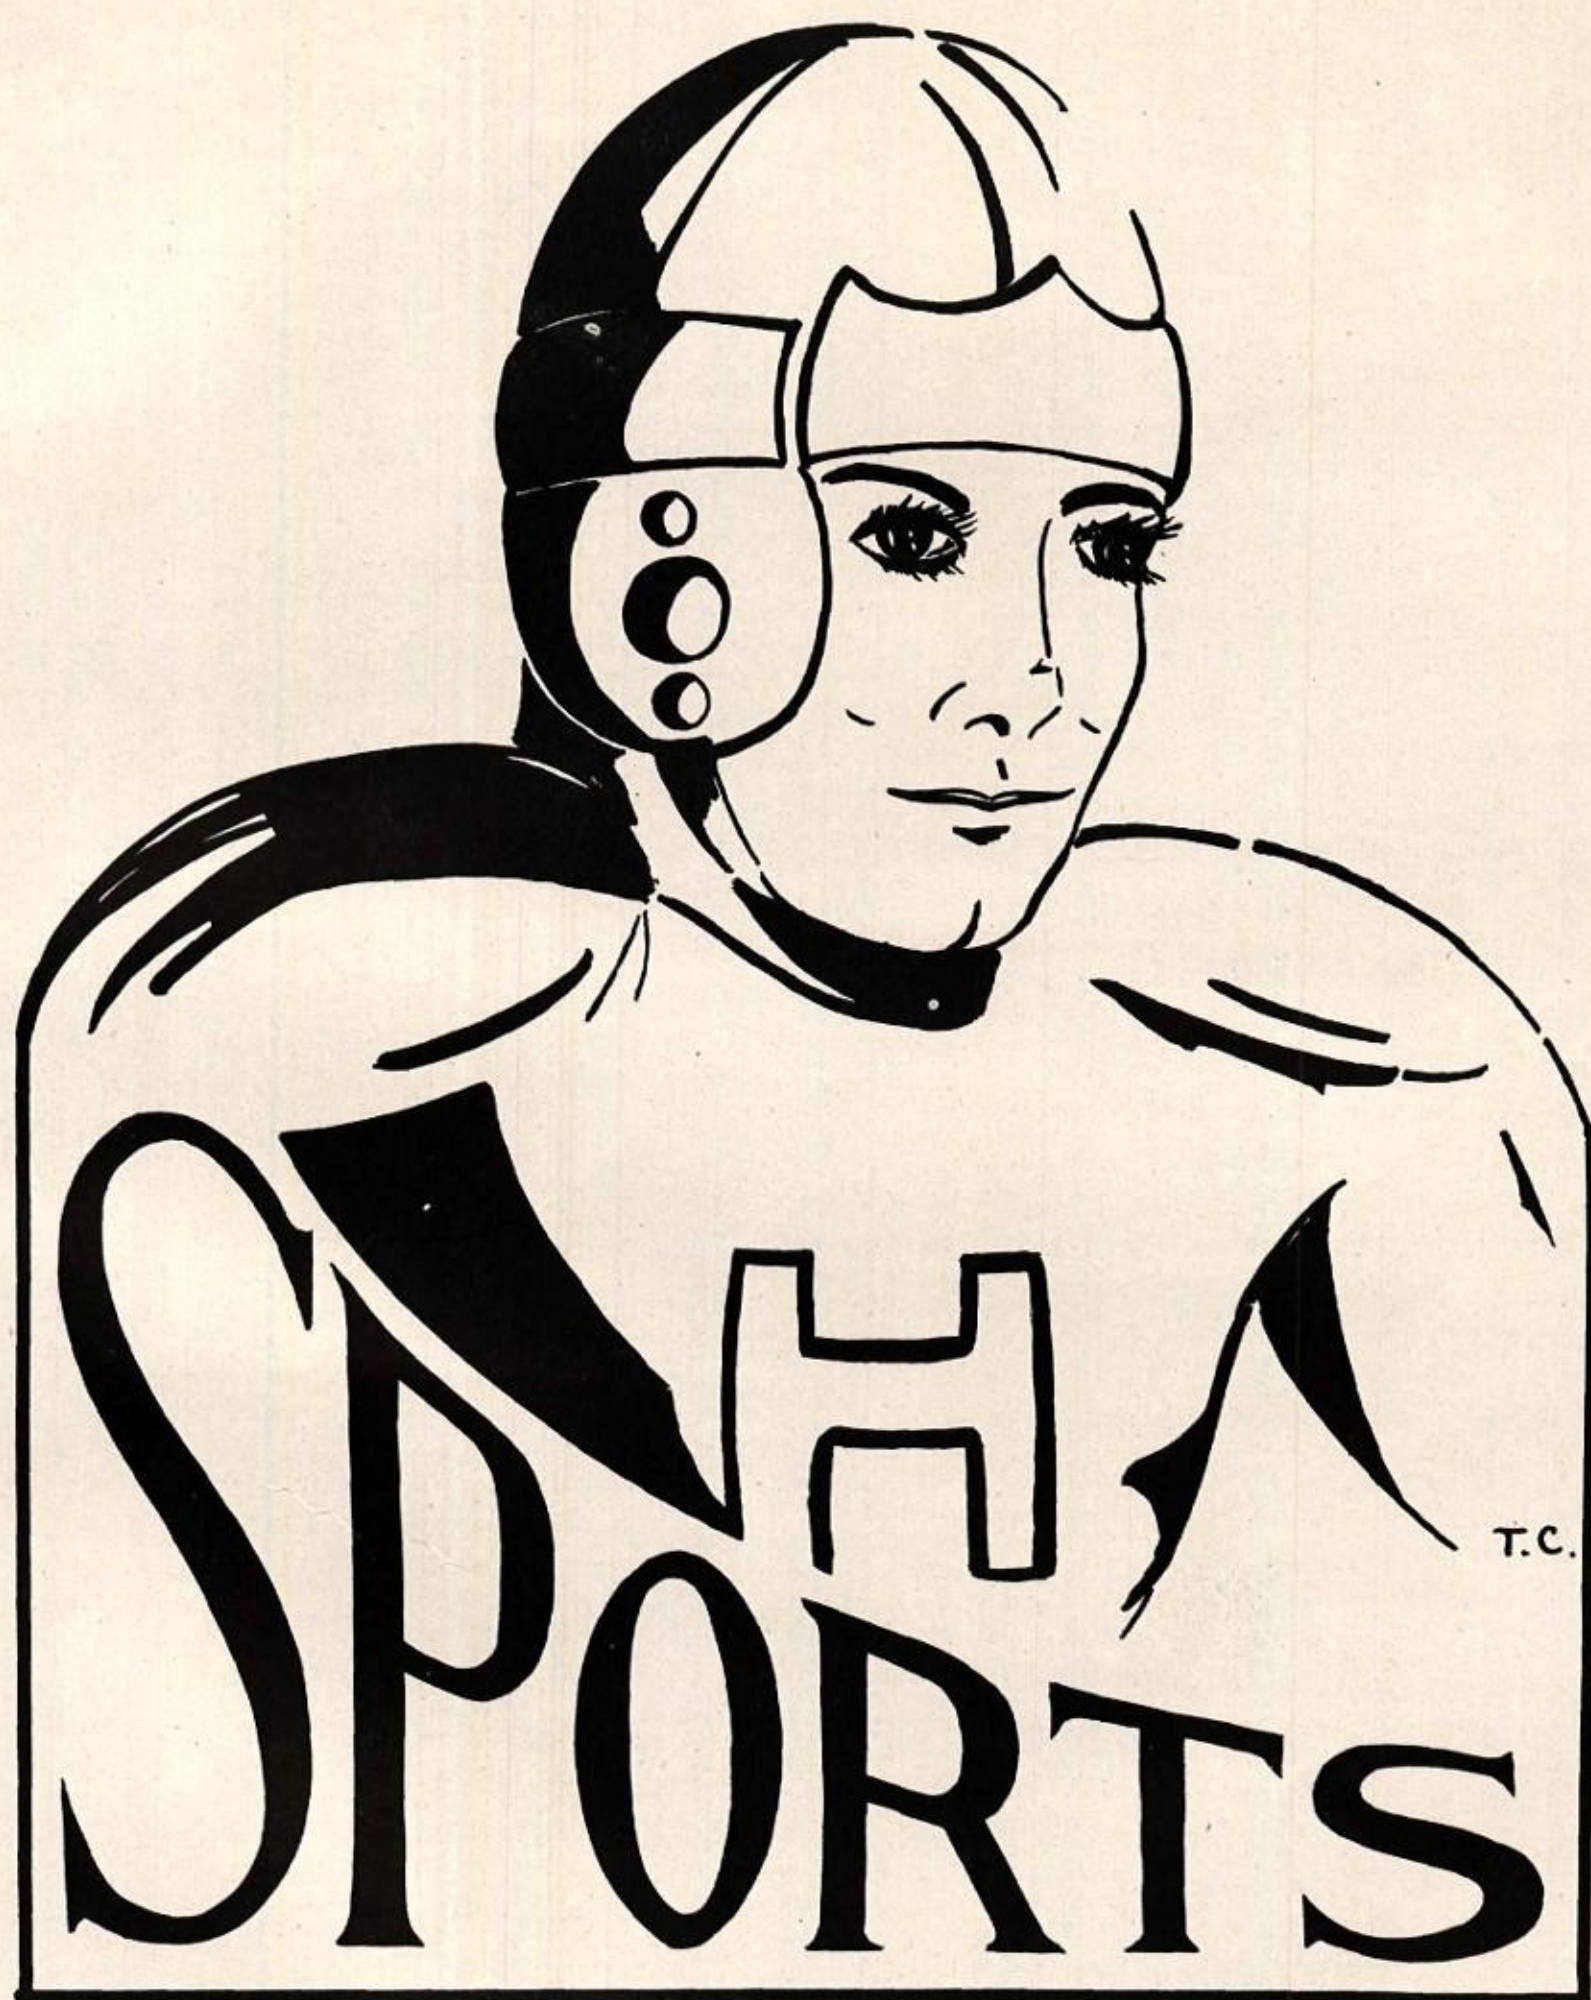

Ina Ziff

Ina's intelligent initiative will enable her to found "The School of Learning for the High School Faculty." Here, the faculty will acquire much more information than ever amassed in college.

John Zwisler

Someday in the future, you will turn on your radio-television set to hear the Philharmonic Symphony Orchestra at Carnegie Hall, and who will you see but "John", as big as life, right in front of you playing his "French Horn". He will master in the classics, but he will play jazz and blue songs as a sideline.

FOOTBALL

Holyoke High opened its 1945 football season on Saturday, September 29 against New Britain High of Connecticut. The game was marked by dedicatory exercises in memory of the 90 Holyoke High School students who gave their lives in World War II. The powerful Connecticut team proved too much for inexperienced Holyoke, and we dropped the curtain raiser by a 28-0 count.

Our boys then traveled to the Berkshires to meet Pittsfield High, the second opponent on the nine game schedule. Holyoke showed noticeable improvement and outplayed Pittsfield for practically the entire contest, only to lose out by a 7-0 margin.

After this game we were faced with the none too pleasant task of meeting the highly touted Agawam High gridders. The "Brownies" broke loose and flashed all the form which made them one of the leading teams in Western Massachusetts. The final score was 28-0.

If Westfield, our next adversary thought it had a "soft touch" it was highly mistaken. The Purple and White, led by Co-Captains Andy McCormick and Austin Mulqueeny pushed the Whip City team all over Mackenzie Field. However, lack of a climax runner, one boy who could break away, put Holyoke's scoring chances on the shelf, and Westfield triumphed 7-0 when Paul Gallo broke away for the only tally of the game.

Adams High, one of the two teams to vanquish our '44 football eleven, proved to be the first victim in the 1945 campaign. On the second play of the game, Ray Beaulac broke on his pet play, a "Sweep Left," and jaunted seventy yards for the only score. Howie Burnett kicked the extra point to terminate scoring activities for the day.

Filled with spirit after the Adams game, our club looked forward to the next tilt with the traditional rival, Chicopee High. The Skiptowners were enjoying a highly successful season, but Coach Roberts and the squad were primed for this game. After four quarters of bruising football neither team had reached paydirt,

and the game ended in a scoreless tie. The outstanding punting of Billy Morgan gave us three scoring opportunities but we were not able to capitalize on one.

Our ever improving forward wall really showed its wares in the next game with Greenfield High, football powerhouse of Western Massachusetts. Fred Wallner, Greenfield's plunging back, who raised havoc with every line he faced, was just another back to Holyoke linemen and was forced to take to the air to account for Greenfield's sizeable gains. Despite the 19-0 outcome, Holyoke fans were proud of our front line stalwarts.

Holyoke's biggest victory of the season came on November 17, in Northampton, where Bill Morgan broke away to score twice and Bill Fitzpatrick once for a 20-0 victory over a completely outplayed "Hamp" eleven. The game was the best effort of the team as a whole.

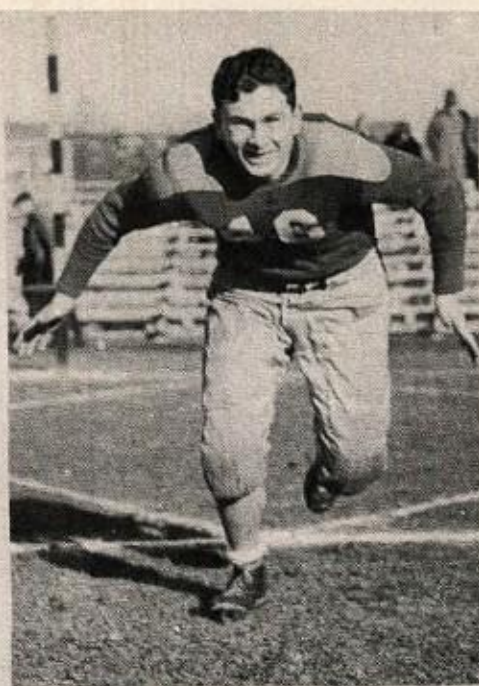

Our final game, scheduled for Thanksgiving Day with Springfield Tech, was postponed until Saturday, November 24, because of poor weather. The Springfield team had too much for us in this game and walked off with a 26-0 victory.

Although we did not enjoy a highly successful season in wins and losses, the final record of two victories, six losses, and one tie, can in no way indicate the spirit and fight of a team that went out each Saturday and outfought the best teams in Western Massachusetts.

BASKETBALL

Holyoke High, perennial powerhouse on the basketball court, was represented by another top flight quintet in the 1945-46 season. Despite the fact that Westfield won the Valley League, an honor taken by Holyoke in the four previous seasons, our club was unanimously recognized as the best in Western Mass. and as one of the best in the entire state. As a result of the fine season Holyoke will play in the Eastern States Scholastic Basketball Tournament to be held at Glens Falls, N. Y., on March 28, 29 and 30.

After opening the season with a victory over Springfield Classical, Holyoke avenged a setback of the previous season by defeating New Haven Commercial 46-27. A game with St. Michael's, the last independent tilt before the start of Valley League play, resulted in the third win for our team. Turners Falls and Northampton were the first Valley League foes to feel the wrath of the scoring power of Hugh McGarrity, Capt. Bill Fitzgibbons, Harold "Sparky" Lyons, Howie Burnett, and Mike Bolko.

Both teams were undefeated when Holyoke and Westfield clashed in a crucial Valley League game. With Hugh McGarrity confined to very limited service because of an ankle injury, a scrappy Westfield aggregation handed our charges their first setback of the season. However, Holyoke High showed its spirit as it came back into the win column with an impressive victory over Springfield Tech followed by triumphs over Chicopee and Sacred Heart. Hugh McGarrity, our towering center, was improving game by game under the watchful eye of Coach William Sullivan and in the Sacred Heart tilt he reached his peak. Hugh tossed 12 baskets and nine fouls for a total of 33 points as we handed our city rival a 55-36 defeat. The second and final setback of the season was suffered at the hands of Greenfield. Capt. Billy Fitzgibbons and Bill Morgan made an heroic effort to pull Holyoke through to victory in this game but Greenfield copped a thrilling 40-37 victory.

The Holyoke five never left the victory trail after this game racking up a win over Springfield Technical and second round triumphs at the expense of Turners Falls and Northampton. "Sweet revenge" was Holyoke's when Westfield High came to our gym for the second meeting of the season. Holyoke walked off the floor the winner by a 48-31 margin over a completely outclassed Whip City team. Chicopee and Greenfield were the last victims on our schedule but Westfield had clinched the Valley League crown before our final game with Greenfield.

Holyoke's varsity was not our only court representative this year. For the first time in several seasons the Holyoke second team engaged in Valley League competition and won 10 straight league games and two independent contests for an excellent 12-0 record. The boys on the seconds this year were Capt. Paul Carey, Raymond Fitzgibbons, Phil Dean, Richie Eger, Jerome Morgan and "Red" Kenney. Several of these boys will undoubtedly don first team uniforms next year and along with Howie Burnett, Harold Lyons, and Billy Morgan will form the nucleus of another strong Holyoke team.

At the close of the regular season Holyoke received and accepted an invitation to play in the Eastern States Scholastic Tournament at Glens Falls, N. Y. The Glens Falls tourney will see Capt. Bill Fitzgibbons, Hugh McGarrity, Mike Bolko, Bill Stacy, Jim "Happy" Bryden, Billy Cauley, and Jim Shea playing their last basketball for Holyoke High.

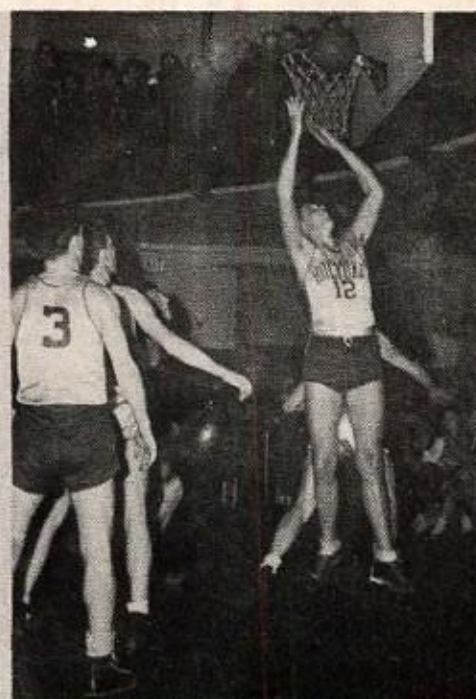

The Yearbook is unable to carry the result of our team's play in the tournament at Glens Falls. So, why not write the result in the space below and thereby have a complete record of the 1945-46 team?

INTRAMURAL BASKETBALL

The Intramural Basketball League, under the direction of Mr. Daniel Regan, is enjoying another successful season. Sixteen teams made up of about 200 boys are participating in this vital part of our physical education program. Competition and interest have been high since the outset of the league and at this writing the number of championship contenders have been narrowed down but no team in either division has clinched top honors. Section 212 defending champion, is again leading the National League teams and boasts a thin lead over Sections 214 and 208. In the National League, the Sophomore - Freshmen Division, Sections 114 and 110 are tied for first place and when these teams clash a champion may be decided. The winners of the National and American Leagues will meet to determine the "kingpin" of the Intramural League.

BASEBALL

This season, for the first time since 1941 the Holyoke High baseball team will be called upon to defend the Valley League championship won in that year. The Valley League was forced to suspend operation for four years because of the transportation ban but this year will function with the regular six teams participating. The other clubs are Chicopee, Westfield, Greenfield, Turners Falls, and Northampton.

Four members of last year's team will be back this year. The holdovers are Bill Stacy, captain and star catcher, Bill Fitzgibbons, outfielder, Billy Cauley, shortstop, and Howie Burnett, outfielder-catcher. These boys will form the nucleus of the 1946 nine and Coach Sullivan has his work cut out for him in selecting the rest of the team from the large group of candidates expected to report.

The competition will be keen this season, but we feel sure that the 1946 baseball team will successfully defend the laurels garnered by past Holyoke High School diamond representatives.

HOCKEY

Holyoke High, out of hockey competition since 1942, returned to the ice this year to become one of the top teams in this section. The club was coached by Frank Reidy, a Holyoke High graduate and a local star. Starting the season with little practice Holyoke developed fast and after a few games performed very creditably against every team it faced. Lionel "Chet" Stebbins was elected Captain of our sextet and he proved a real leader as he paced the Holyoke scorers and assisted in many tallies. "Doc" Watson, Frank Armata, Bruce Tait, Jack Barnett and "Chuck" Hanley aided Stebbins in the point-making department while Al Canova, Dick Herman and Ray Beaulac were

brilliant on defense. Holyoke received some excellent performance in the nets from goalies Paul Perrault, Henry Gerardo and Dick Walker.

STUDENT COUNCIL DANCE

The class of 1946 can well be proud of its Student Council Dance. Much of the success may be attributed to the Student Council and its competent advisors who originated the unique idea of forming a social committee to publicize the dance. The special task of this committee was to persuade shy boys to indulge in this evening of fun and frolic.

Everybody was in the holiday spirit for two reasons: first, it was the eve of Washington's birthday; and secondly, ten blissful days of vacation were ahead.

A contributing factor to the appearance of excellent dancers was the previous class, which had been sponsored by the Student Council.

At eight o'clock on February 21, the limousines drove up to the War Memorial Building. Many a Cinderella and her Prince Charming stepped forth to be greeted by the echoing strains of Jimmy Downing's orchestra, which predicted many hours of enjoyment.

The climax of the evening was the grand march led by Miss Gertrude Griffin, a member of the Faculty, and William Fitzgibbons, President of the Student Council.

At eleven o'clock the crowd dispersed, but later re-assembled to enjoy sandwiches and cokes.

We, as seniors, wish to thank Miss Griffin and Mr. Harper for their efforts in making this, our last Student Council Dance, the tremendous social success that it was.

PARTY

BIG

THE BIG SISTER PARTY

One of the finest traditions of Holyoke High School is the annual "Big Sister Party." Held on an evening early in the school year, it purposes to make the new pupils of the school at home in their new environment. It's essence is friendliness and earnest effort on the part of the upper class girls to make the incoming sophomores and freshmen feel that they "belong." It is an occasion both for the older girls and the newcomers.

We, as seniors, tried last October to make this, our last "Big Sister Party", a tremendous success. With the aid of the Student Council under the excellent leadership of Miss Griffin and Mr. Harper every Junior and Senior girl found herself acquiring a little sister. The timely question was, "Do you know so-and-so?"

Before school the latter part of that week there was an influx of big sisters on the first floor, looking for their partners for the big event. It seemed as though all the girls of Holyoke were gathered outside the Annex at 7:50 the night of the party.

As hostesses it was our task to provide the entertainment. Looking back upon it now, the skit "Wild Nell, the Pet of the Plains," or "Her Final Sacrifice" was the "hit" of the evening. It was one of the features of the entertainment and it certainly brought forth the laughter. Those who helped make it such a success here: Lorraine Cousineau, Janet McCormick, Helen Cray, Catherine O'Connor, Mary Lou O'Hare, Ann Kirkpatrick, Barbara Blais, Jo Ann Prentiss, and Avis Freyer. Jan Attinger's rendition of the difficult composition, Chopin's "Polonaise," tended toward the more serious side and was appreciated by all. Ruth O'Leary, well known to all of us for her lovely voice sang the popular version, "Till the End of Time." The humor of Eileen Curran's monologue called for many an encore.

Thanks to Miss Ahern and Miss Heffron the refreshments were served in an orderly fashion.

We were having such a wonderful time that we forgot to look at the clock. When everything was over, it was gratifying to us seniors to hear our guests exclaim. "My, isn't High School wonderful!"

STUDENT COUNCIL

In the Student Council Cabinet elections held in June, 1945, William Fitzgibbons, Margaret Shea, Joan Scheibel, John Greszyk, Howard Burnett, Michael Bolko, James Shea, Dorothy Galary, Bertha Brackman, and Harold Lyons were elected by the students as most capable to manage Student Government for the coming school year. And for the second successive year Miss Gertrude Griffin and Mr. Wyatt Harper were selected as the faculty advisors.

At the first official meeting of the Student Council Cabinet and the Student Council Section Representatives, the officers of the Council were elected by ballot. With William Fitzgibbons as Preseident, Peggy Shea as Vice President, Joan Scheibel as Secretary, and Mr. Wyatt Harper as the Treasurer, the Council promised a very successful year.

For the first time in the history of the school the officers of the Council and the presidents of the four classes were inducted at the same assembly. The Student Council President promised to do his best in the coming year in carrying out all the work connected with the running of the Student Government, and the presidents reported on the projects undertaken by their respective classes. The undertakings already under the jurisdiction of the Student Council were divided among the four classes and the seniors accepted the responsibility of the Revision of the Constitution.

The first assembly of the school year 1945-1946 held under the auspices of the Student Council was the V.J. ceremony. It was a stirring program and set the year off with that new kind of spirit that had been lacking in high schools everywhere since the beginning of the Second World War.

Other successful undertakings of the Council included the Red Cross Drive, which far exceeded its quota, and the annual Christmas Seal Drive. The work of the Section Representatives in filling the Junior American Red Cross boxes with playthings and necessities for

the underprivileged youngsters of Europe, was another feature of the year's projects.

"Something new has been added," as the saying goes, for the Student Council sponsored a dancing class with instruction given by Mr. William O'Brien, one of the outstanding dancing teachers of the city. This class boasted a membership of sixty, consisting of pupils from all classes.

Also on the list of Senior projects was the supervision of the Social Committee in conjunction with the Sophomore Class. Two very successful events of the social year carried out by these two classes were the Big Sister Party and the Student Council Dance.

The Council this year corresponded with many high schools inquiring about projects being carried on in their respective schools. One of these letters was directed to Brocton High School concerning lunchroom affairs. The Student Council supported a Lunehroom Committee composed of thirty pupils of the junior and senior classes. The Committee had a very successful year and completed its duty with the thanks and gratitude of all affected by its work.

We were really proud of our Cheer Leaders this year, too, because they turned out at all the sports activities and gave the fullest measure of their energies to their task under the capable leadership of their leader, Bertha Brackman.

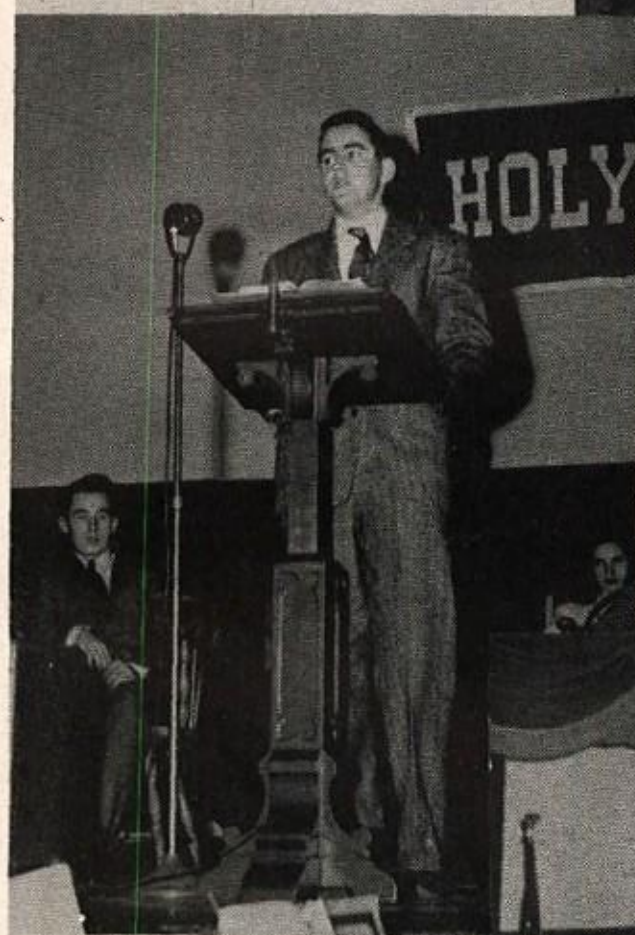

Here is something else we can be duly proud of, our own H.H.S. was a pioneer in introducing student government in the high schools of Massachusetts for the first time since the beginning of the war. This year Cabinet members were selected to take their rightful places at a meeting of the State Organizations Student Councils held at Webster High School, Webster, Mass.

All in all, we, the seniors, want to take this opportunity to show our gratitude to the Cabinet, to the Representatives, to Miss Griffin, and to Mr. Harper for making our last year at H.H.S. a very happy and successful one because of their expert handling of student government affairs.

DRAMATICS

CHRISTMAS PLAY—1945

On December 21, 1945, the student body of H.H.S., their hearts filled with the spirit of Christmas, gathered in the auditorium for the presentation of the Christmas program.

A brass quartet heralded the commencement of this program, our last Christmas assemblage at H.H.S. The quartet was comprised of members of Mr. Fred Grady's band. They were: Catherine Ahern, Mary Clinger, David Murphy, and Max Fricke.

Then, under the direction of Mr. William E. Holdridge, the A Cappella Choir in its usual imposing manner, rendered three beautiful Christmas selections: "The Child Jesus," a cantata, by Joseph Clokey; "Now the Holy Child Is Born," a Normandy Folk Song; and "Sing We All Noel!" by York. "White Christmas" was sung in duet arrangement by Ruth O'Leary, '46, and Jacqueline Bineau, '48.

As the surpliced choir took their seats in the dimmed auditorium, the announcer, Mary Lou O'Hare, told us of the setting of the Christmas Play, "Why the Chimes Rang," which followed under the always effective direction of Miss Grace B. Healy, Teacher of Speech in the English Department.

"Why the Chimes Rang" is the story of a poor peasant boy, Holger, who had prayed that he and his brother, Steen, might go to the Cathedral on Christmas Eve—for a miracle was to occur. It was said by the town folk, that tonight, Christmas Eve, the chimes in the high tower of the Cathedral would ring out gloriously when a gift, earnestly given, was presented for the glory of God. Holger received his cherished wish and as he, the humble worshipper, coming after so many of the wealthy, gave the priest his few pennies—the chimes pealed forth in triumph melody and the choir sang "The Angels Song," written by Lichsnokov.

The cast of "Why The Chimes Rang" is as follows:

Holger — Philip Dunn
Steen — George Dydek
Uncle Bertel — Raymond Morin
An Old Woman — June Evans
Priest — James Hanna
King — James Sullivan
Monk — Robert Saex
Ladies of Winfred Krumpholtz — and
the Court Constance Laurin

Under the supervision of Mr. Fred Grady, Helaine Judelson played the chimes very effectively. Our own beloved Miss Grace Healy directed this play superbly and had as her assistant, Ann Dowd. The production

crew was composed of:

Richard Smith	Howard McNally
Herbert Lindner	Howard Ziff
Thomas Sullivan	Robert Moynihan
Edward Sullivan	

With the echo of the chimes, the lilting voices of the A Cappella Choir, and hushed, reverent tone of the play ringing in our hearts, the Christmas program of 1945 came to an end. Do you remember?

The cooperation of students and faculty members, particularly between departments, was never more vividly demonstrated than by the smooth program of the performance from the start to the final curtain. It is only in retrospect that we realize the superlative co-ordination of the contributing talents of students and teachers. As always, Miss Grace D. Lynn and her pupils worked untiringly on design of setting and costume; Mr. Robert E. Hamill with his crew of husky stage mechanics, fashioned and directed the scenery. Every detail was executed to perfection. And so, we are deeply grateful to our school, not only for giving us such a meaningful Christmas entertainment, but also to the members of our faculty who revealed to us one of the greatest lessons of citizenship, the productiveness of co-ordinating the talents and energies of those with whom we work, to the common good of the community in which we live.

"THE SPIRIT OF WILLOW PATTERN PLATE"

"The Spirit of the Willow Pattern Plate" was the initial production of the Dramatic Club in our Senior year. It was the first time that most of us had seen a play done in the Chinese manner. The experience was made doubly enjoyable by our seeing five talented classmates in the featured roles.

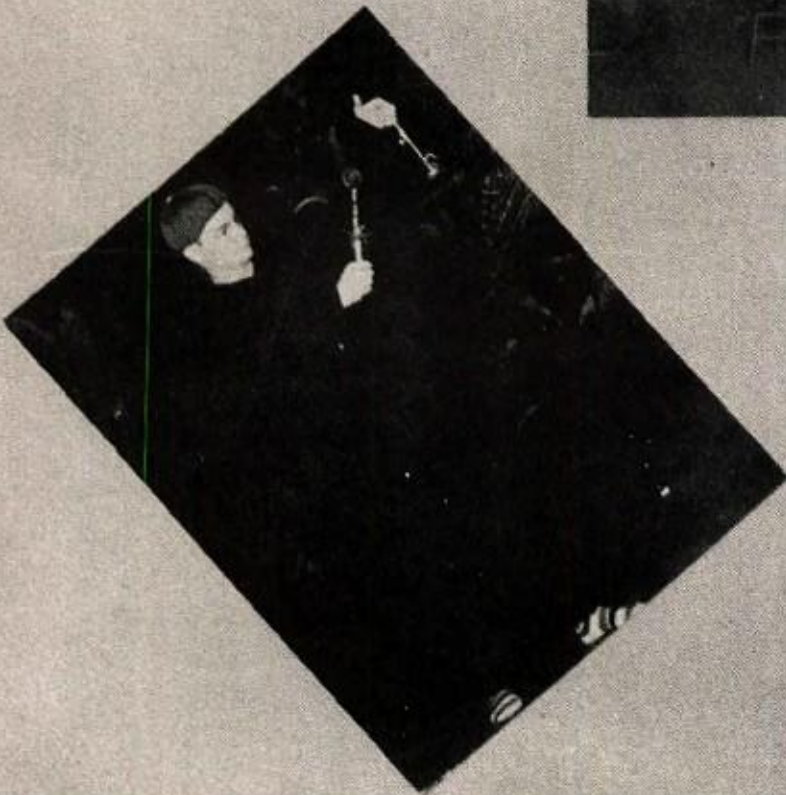

The play was presented in fragments and with very little scenery, leaving much to the imagination. One of the peculiarities of the production was the sounding of a gong instead of the usual drawing of the curtain to herald the end of each scene.

Helen Cray as Koong-See, and Herbert Lindner as Chang played their parts to oriental perfection. The comic element in the play was furnished by Richard Smith as the mandarin. Walter Griffin, the property man, remained on stage throughout the performance and assisted the actors. The atmosphere for the play was created by George Chivas' introduction.

It is needless to say that the success of the presentation was to a great extent due to Miss Healey's able supervision. The play, "The Spirit of the Willow Pattern Plate", preceding our Thanksgiving vacation, was the climax of the first ten weeks of our senior year.

One week before the Prom

The first date  
with that  
new girl !!

Remember  
how her  
grandmother  
cornered you?

Will ya go  
with me?  
Will ya~  
Huh!?!

He didn't even recognize me  
from the back!

~How we prayed that the  
scenery wouldn't fall~

The topic  
of conversation  
**MEN!**

At Last!

"Cramming for  
Exams"

We all had a  
wonderful  
time at  
The Prom!

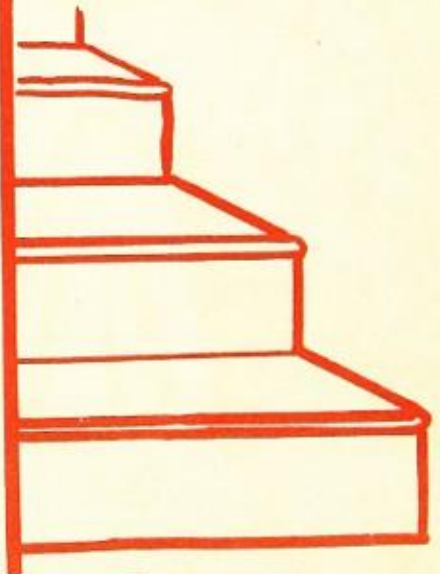

The Peace and Joy of  
going Steady!!!

The football games were always  
fun - Especially with that  
handsome halfback on the team

I saw you  
Smile at her
